

Dinesh K. Pai is a Professor and Tier 1 Canada Research Chair in the Department of Computer Science at the University of British Columbia, and a Professor of Computer Science at Rutgers University. At UBC he is a member of the Institute of Applied Mathematics, the ICORD International Collaboration on Repair Discoveries, and the Brain Research Centre. He received his Ph.D. from Cornell University, Ithaca, NY, and his B.Tech. degree from the Indian Institute of Technology, Madras. His current research is focused on sensorimotor computation in computer graphics, haptic interfaces, robotics, and neurobiology.
